

# Business Continuity Services

## Pyramid Technology Services

PTSI offers businesses a unified, easy-to-use, cost-effective platform for complete and continuous access to all business data, applications and systems. No downtime, no data loss, no complexity.

Servers are prone to fail, but with just a couple clicks in the web-based console, you're back in business. You can fail over servers to the onsite appliance, or you can virtualize your entire IT infrastructure in the cloud in the event of an extended outage at your facility.

Legacy backup and disaster recovery solutions don't address the very critical period of time between a server going down, and a business being back up and running. This is when businesses are most exposed to revenue and productivity loss, along with reputation damage. Our business continuity service fills the downtime gap by offering instant recovery of data, applications, and systems so your business can get right back to productive work, anytime, from anywhere. We deliver such continuity in every vertical industry, allowing business owners to sleep at night with the confidence that their systems are protected.

### Typical Services Include:

#### Example A:

- On Site appliance that is constantly backing up data to a total of 250GB
- Data is uploaded to Cloud Storage for Business Continuity to a total of 125GB
- Ability to run application on the appliance if a server fails
- Ability to run applications from the Cloud if your site is without power.
  - o Monthly charge \$349

#### Example B:

- On Site appliance that is constantly backing up data to a total of 500GB
- Data is uploaded to Cloud Storage for Business Continuity to a total of 250GB
- Ability to run application on the appliance if a server fails
- Ability to run applications from the Cloud if your site is without power.
  - o Monthly charge \$499/mo.

## Healthcare

### **Fill Your Prescription for a Healthy Data Protection System that Fits Your Business Style.**

Since your healthcare practice depends on constant availability of patient records, scheduling systems and billing programs, you can't afford a weak data protection system or the headache and costs of downtime.

Our Service securely backs up and instantly restores all of your data, applications and systems, offering you the peace of mind that you'll be able to serve patients and maintain HIPAA compliance – without any loss of productivity – no matter what happens.

## Education

### **In Education, Earning Can't Wait for Downtime. And with business continuity, it Doesn't Have To.**

Downtime can greatly disturb your college or K-12 institution's productivity, reputation and the privacy of student and faculty data. Students, parents and staff all count on complete reliability when it comes to accessing records, registering for classes or using vital applications.

Now educational institutions can have peace of mind about their uptime with this head-of-the-class solution for complete protection and instant restoration for critical business content. This service delivers all-the-time uptime with ease and affordability.

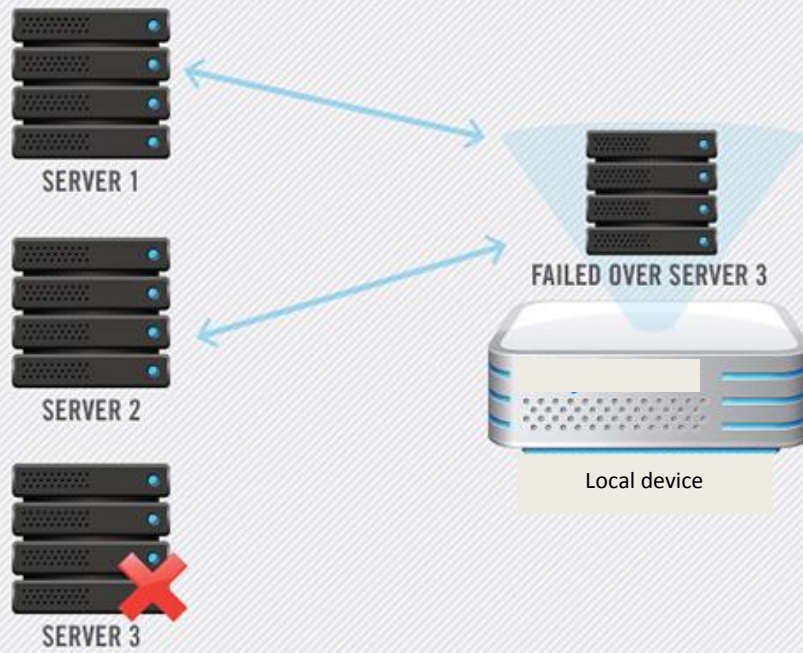

These advancements in cloud-based backup, business continuity and disaster recovery allow you to make total data dependability a pledge. Our market-leading solution grants public and private schools and universities the assurance that they'll avoid the costly loss of productivity, damaged reputation or state fines that can result from downtime – no matter what happens. what happens.

Our knowledgeable staff is available toll-free within the US at 877-289-7874 (877) BUY-PTSI or at (978) 823-0700 if calling from outside the US.
